EDUCATION

University of Warwick

MEng Electrical and Electronic Engineering

- Current Average : 83% (First Class Honours)

Coventry, UK
2025-2029 (Expected)

Christ's College Finchley

Sixth Form Education

- A-Levels: Mathematics (A), Further Mathematics (A), Physics (A), EPQ (A*)
- GCSE's: Nine Grade 9s and one Grade 8, including Mathematics and Physics
- Activities: Prefect, Football First Team

London, UK
2018-2025

WORK EXPERIENCE

ARM

Electronics Work Experience (Pre-University)

- Designed and implemented embedded control logic using event-driven programming in MakeCode
- Applied programming constructs including loops, conditionals, and timers to control embedded system behaviour
- Designed and built a functional hardware prototype simulating satellite embedded systems
- Presented technical design and implementation to engineers and peers

Cambridge, UK
June 2024

Barclays

Technology Work Experience (Pre-University)

- Shadowed engineering and technical teams to understand large-scale software systems and workflows
- Observed how data and software systems are used to improve product performance

London, UK
June 2024

ENGINEERING PROJECT EXPERIENCE

Remote controlled Car

Electronic System Design Project

- Secured funding for team project to design and build a remote-controlled electronic system
- Designed and implemented electronic circuitry including motors, battery systems, and power connections
- Awarded Mark-Evson Gold Award for engineering innovation

London, UK
Oct 2024

SKILLS AND INTERESTS

Programming and Tools: Python, MATLAB, Excel, MakeCode

Embedded Systems and Electronics: Electronic circuit design, embedded control logic, hardware prototyping, system integration, electronic components and power systems

Engineering Knowledge: Signals and systems, control systems fundamentals, electronic system design

Achievements: Senior Maths Challenge Gold Award (2× recipient); Mark-Evson Gold Award

Interests: Embedded systems, electronics design and prototyping, hardware engineering, football
